

Maximize your cloud's transformative power by seamlessly integrating support for both new migrations and the optimization of existing applications.

### About Milestone

Milestone Technologies is a leading global IT services and digital solutions provider that collaborates with organizations worldwide to revolutionize their technology infrastructure and digital capabilities.

With a strong commitment to innovation and customer satisfaction, we empower businesses to accelerate their digital transformation journey and unlock new opportunities for growth and success.

By leveraging our extensive expertise in cutting-edge technologies, we provide companies with the agility and scalability needed to stay ahead in today's rapidly evolving digital landscape.

### Why Clients Love Us

Backed by 25 years of client-focused experience, Milestone's cloud application services deliver:

- Speed and flexibility – low-code and cloud native development
- Automation – through IT and DevOps automation
- Governance – through tightly integrated control, security compliance
- Performance – through selfhealing and observability

### Enable Your Cloud Journey With Milestone

Milestone's comprehensive cloud migration framework brings best-in-class capabilities together with exclusive tools, methods, and automation across all cloud models and multiple delivery methods.

Milestone's Certified Cloud Architects help you navigate complexity, from landing zones in the cloud continuum to regulating data control.

### Milestone Cloud Offerings

Public Cloud, Private or Hybrid Cloud? We have your needs covered:

#### Cloud Native Applications

Write onetime, run anywhere on prem or cloud

#### Best in-Class Security

Protect systems, data and users

#### Network

Speed and predictable application performance

#### Hybrid and Multi Cloud

Choice and flexibility to your business needs

#### Fully Managed

Ease of use with serverless computing

#### Embedded AI & ML

Adoption of native AI and ML models

Discover how Milestone's Application Services can transform your IT architecture with a custom software solution designed, deployed, and supported for your business needs.

# Applications & Digital Engineering Services

## Cloud Transformation

### Technology Stack

Mobile Apps	
Web Frontend	
Web Backend	
Database	
DevOps	
Test Automation	
Performance	
Cloud Platform and Native Applications	

### How to Get Started

A team of experienced cloud strategy architects work with you to determine the right cloud strategy, operating model, roadmap, and ecosystem partners. We then help you accelerate migration and modernization to a cloud that is secure, cost-effective, and agile.

#### Cloud Native Discovery

Milestone cloud architects show how cloud-native development benefits your business

#### Co-Create Cloud Blueprint

We collaborate with you to design your cloud-native

#### Build Proof-of Architecture

Develop proof of architecture to confirm solution approach

#### Cloud Native Roadmap

Create scalable cloud architecture plan to achieve differentiated business outcomes

#### Cloud Implementation or Migration

Phase in implementation or migration without impacting application availability

### The Milestone Advantage

Industry-leading organizations rely on Milestone as a trusted partner to accelerate innovation, improve enduser experience and deliver business outcomes operational agility, employee productivity, and digital transformation.

We are known for delivering enterprise scale solutions with a focus on service delivery and operational excellence that respects your privacy, confidentiality, chain of custody, and maturity.

Milestone's customer-centric approach to service excellence drives our efforts and makes us the first choice for companies in need of a partner to help deliver transformational change.
